

Development Strategy

Under the guidance of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, we will focus on the new development stage, apply the new development philosophy and serve the new development paradigm. With reform and innovation as the basic driving force, we aim to meet people's growing demand for better lives. We will adhere to the general principle of pursuing progress while ensuring stability, deepen supply-side structural reform in the financial sector, step up our efforts to accelerate digital transformation and promote high-quality and sustainable development and facilitate higher-standard opening up. We will stand up to our responsibilities and missions as a major state-owned bank, mobilise resources to serve the real economy, and dedicate further efforts to technology finance, inclusive finance, green finance, wealth finance, cross-border finance, consumer finance and county-level finance. We will continue to put risk control and management high on our agenda and exercise prudence and compliance in operation. We will uphold a systematic concept in fostering a development pattern in which the Bank's business is centred on domestic commercial banking and bolstered by our global reach and integrated operation arms. We will stick to our strategic approach of "invigorate, adapt to change and drive for major breakthroughs", and thus strive to build a first-class global banking group!
